## PROFESSIONAL SUMMARY

Results-driven Scrum Master with 8+ years of experience in the healthcare and health-tech sectors, specializing in genomics, clinical operations, and strategic partnerships. Proven expertise in leading cross-functional teams across commercial, clinical, and scientific domains to deliver complex data products and enterprise initiatives. Adept at managing full program lifecycles, from contract execution to client success, while driving process improvements and operational excellence.

## EXPERIENCE

### Senior Project Manager/Scrum Master Baylor Genetics

Dallas, TX • July 2024 – Present

- Provide strategic guidance to cross-functional project teams (clinical, lab, IT), ensuring alignment with the organization's overarching genomic goals and strategic direction.
- Manage a portfolio of 5+ key technology and service partnerships, monitoring performance against SLAs and leading quarterly business reviews to drive continuous improvement and operational excellence.
- Lead a strategic Customer Service Automation project, resulting in an 80% improvement in customer response time and reallocating 2 FTEs worth of hours to high-value tasks.
- Implement Scrum methodology for Bioinformatics Software Development and Lab Automation teams, increasing deployment frequency of technical data products by 40%.
- Created and implemented a company-wide Project Management Training Guide for 600+ employees, establishing PM best practices and standardizing reporting for internal and external stakeholders.
- Create AI Agent to automate user story creation for VDI Implementation projects across 5 departments, thereby reducing manual requirement gathering and documentation down from 30 minutes to 1 minute.

### Business Alignment Project Manager Baylor Genetics

Dallas, TX • October 2022 – July 2024

- Managed a multi-million-dollar product development research project, coordinating communication between 6 departments (MA, Product, Clinical Genomics, IT, Sales, Legal) to minimize legal risk and ensure compliance.
- Implemented a Salesforce CRM rollout for 3 service lines, coordinating with Sales, IT, and Marketing to complete the transition 2 weeks ahead of schedule.

- Created and implemented a master project tracking system for 36 cross-functional projects, successfully transitioning the system into a unified Smartsheet dashboard for executive reporting and transparency.
- Planned and executed a 5-day Lab Week employee appreciation event for 300+ remote and on-site employees, managing a \$50K budget and securing \$15K in vendor sponsorships.

### **Project Manager SPH Analytics (A Press Ganey Solution)**

Dallas, TX • May 2021 – October 2022

- Led the acquisition and lifecycle management of 20+ key client accounts, including C-suite executives and marketing directors, to develop customized healthcare survey and data solutions.
- Managed and directed the entire project life cycle for 10-15 concurrent client partnership projects, including scope, deliverables, issue resolution, and risk management.
- Maintained rigorous communication protocols with clients and internal stakeholders, delivering weekly status reports and keeping projects 98% on-time against contract deliverables.
- Provided leadership and direction to project team members, coordinating research studies for vulnerable populations (e.g., elderly, long-term living, and CHIP/Medicaid recipients).

### **Health Policy Intern Emgage Action**

Dallas, TX • June 2020 – January 2021

- Applied Lean methodology to the U.S. Census phone banking protocol, resulting in a 48.8% completion rate in Tarrant County, exceeding state averages.

### **Patient Manager The Pill Club**

San Francisco, CA • July 2018 – May 2019

- Collaborated with engineering and logistics teams to automate refill requests, resulting in a 5-day reduction in prescription wait time per patient.
- Managed a team of 8 patient care coordinators, successfully onboarding an average of 12,000 patients per week.

## **EDUCATION**
